Tarangire National Park

Accommodation

Fig Tree Lodge & Camp

Welcome to the start of your safari and welcome to Tanzania! You've chosen a fantastic place for your safari journey and we'll get you started with an introductory briefing before we head out to begin the trip you've been dreaming of.

Wherever you go in Tarangire National Park, you'll come across the park's famous baobab trees and elephants. These twin elements give this park so much personality. There is, of course, so much more. We don't just mean the huge populations of wildebeest, giraffes, hippos, buffaloes, baboons, vervet monkeys and zebras, or the rugged landscape of rocky hills, rivers, swamps and savannah plains. You also have an excellent chance of spotting lions here, Tarangire is a real lion stronghold, and keep an eye out for leopards and cheetahs as well.

Arusha

Get to know Arusha and you'll understand a little more about local life. It's a fascinating city.

Accommodation Fig Tree Lodge & Camp

Hotel

One of the best things about Fig Tree Lodge & Camp, your base in Mto wa Mbu, is how close it is to the main entrance for Lake Manyara National Park: it's a five-minute drive away. You're also in the heart of town, which is easy to explore on foot from where you're staying. The lodge has simple rooms, a camping area, a swimming pool, restaurant and bar.

Serengeti National Park

Accommodation

Nyani

The UNESCO World Heritage—listed Serengeti National Park will almost certainly be one of the highlights of your safari, and it's the kind of place that very quickly becomes a favorite. That's partly because of the wildlife: this is one of the best places anywhere to see lions, leopards and cheetahs. Although every big cat sighting is special, they're only a part of the story here. There's a good chance you'll also see elephants, zebras, giraffes, wildebeest, buffaloes and spotted hyenas and much more. Many travelers' love affair with the Serengeti is also because of its landscapes: expect vast savanna grasslands, acacia trees and pretty hill country.

The drive down into the crater will be just as special, taking you down onto the crater floor where nature rules and no human being may pass the night.
